

Pesticide Free

# Argodin

For external injuries caused by Argulus or any secondary pathogens

## Unique Features

- Argodin can effectively reduce external injuries / ulcers caused by Argulosis, or any secondary infection of fish / prawn.
- Single dose is enough to control any secondary infection in pond condition.

## Benefits:

- Decreases microbial flora on the skin.
- Effectively reduces extreme injuries/ ulcers caused by Argulosis.
- Cures secondary infections of finfish.

## Application

- Dose: 1 L / ha / meter depth
- Mix with adequate water and spread over the entire pond.

Infected fish

Post treatment fish
