

Feed Acidifier for Poultry

ACIDAC is a Blend of buffered organic acids like Formic acid, Propionic acid together with Citric acid with unique Silicate as carrier.

BENEFITS OF ACIDAC:

- Controls the microbial contamination of feed via creating acidic conditions in the feed.
- Works mainly in intestine.
- Does not alter palatability of feed.
- Does not damage other ingredients in feed.
- Totally safe to handle by workers.
- Easy handling and mixing.

ADVANTAGES ON NUTRIENT DIGESTION:

- Improves efficacy of enzymes by enhancing release & utilization of nutrients from feed.
- Acidification increases the hydrolysis of feed proteins & stimulates absorption of vegetable proteins.
- Improves utilization of trace elements due to their Chelation.

ADVANTAGES ON PATHOGENS:

- Kills important pathogenic bacteria in poultry like *Salmonella*, *E. coli*, *Clostridium perfringens*, *Listeria*, *Campylobacter jejuni* & all other Gram-negative bacteria of poultry.
- Prevents growth of pathogens.
- Decreases the pH which maintains an unfavourable medium for growth of pathogenic bacteria, while favouring lactic acid bacteria.
- Keeps microbial balance in the digestive system.

INCLUSION RATE:

1 to 3 kg / ton of feed depending on microbial level.

PRESENTATION:

25 kg
