

 **BioGano** 

Scientifically developed natural product for gut health

Scientifically developed natural product for gut health

## INTRODUCTION :

**BioGano** is formulated as natural feed additive, containing essential oil and zinc.

It functions as antimicrobial by breaking down proteins that binds cell wall. It helps to protect from necrotic enteritis and assist in controlling coccidiosis by increasing cell turnover in the intestinal wall.

**BioGano** is an excellent appetite enhancer, also shows significantly increase in intestinal enzyme activity. It improves feed conversion ratio and growth.

- **BioGano** is a natural feed additive containing essential oils.
- **BioGano** functions as anti-microbial by breaking down the proteins that bind the cell wall.
- It helps to prevent necrotic enteritis and assists in reducing Coccidiosis.
- 

## COMPOSITION :

**BioGano** contains Oregano Oil.

## ADVANTAGES OF ZINC :

- Immunity Booster.
- Helps in cell division & growth.
- Helps in healing the wounds.
- Zinc is very powerful in protecting Birds from Wing Rot.
- It is a powerful immunomodulator without effecting Minerals values Inflammation.

## ORIGANUM VULGARE (OREGANO) :

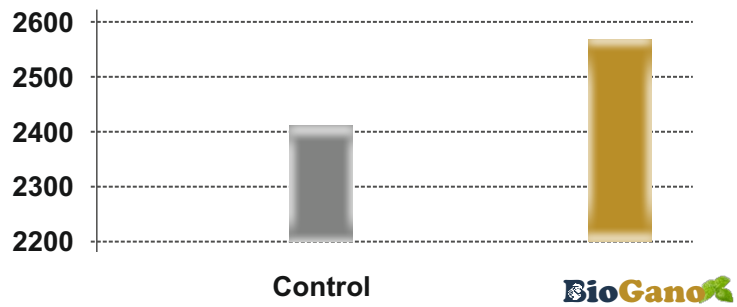

- It supports the immune system and protects against toxins.
- Origanum vulgare is a natural, safe and effective for birds compared to other chemical ingredients.
- It contains key bioactive components, including thymol and carvacrol.
- O. vulgare as poultry feed supplements is effective antimicrobial, antioxidant, antiviral, immunomodulatory and antiparasitic.

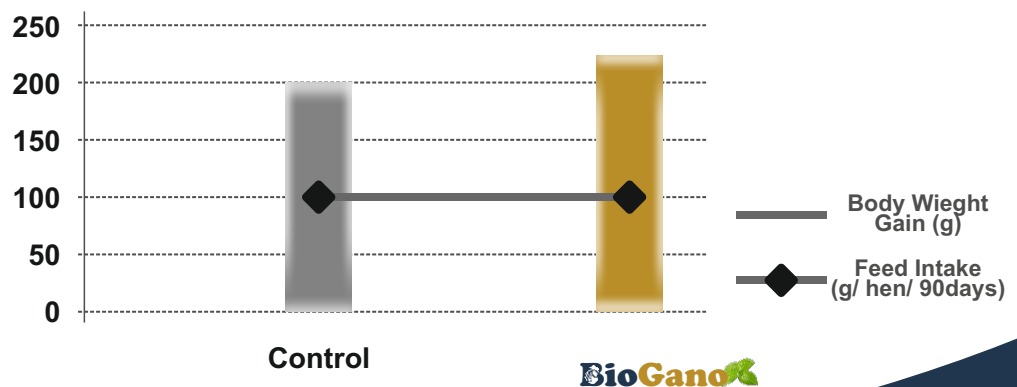

Scientifically developed natural product for gut health

Egg Mass (g/ hen/ 90 days )

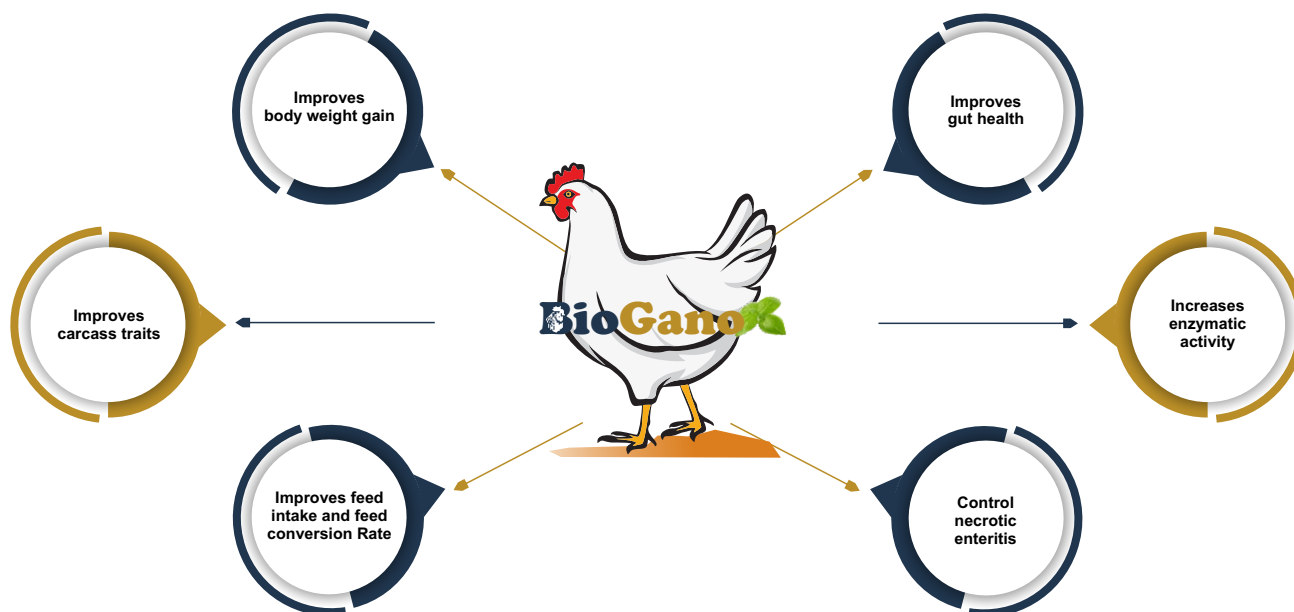

Feed Intake VS Body Weight Gain

Scientifically developed natural product for gut health

**BioGano** is a very Powerful immunomodulator, gut acting antifungal product.

## BENEFITS:

- **BioGano** is a natural product containing oregano essential oil for better productivity and performance in poultry.
- Effective to control Necrotic enteritis on poultry.
- Prevents gangrenous dermatitis.
- **BioGano** supports gut health hence works as performance enhancer.
- **BioGano** helps in controlling coccidiosis.
- Helps in enhancing immunity.

## INCLUSION RATE:

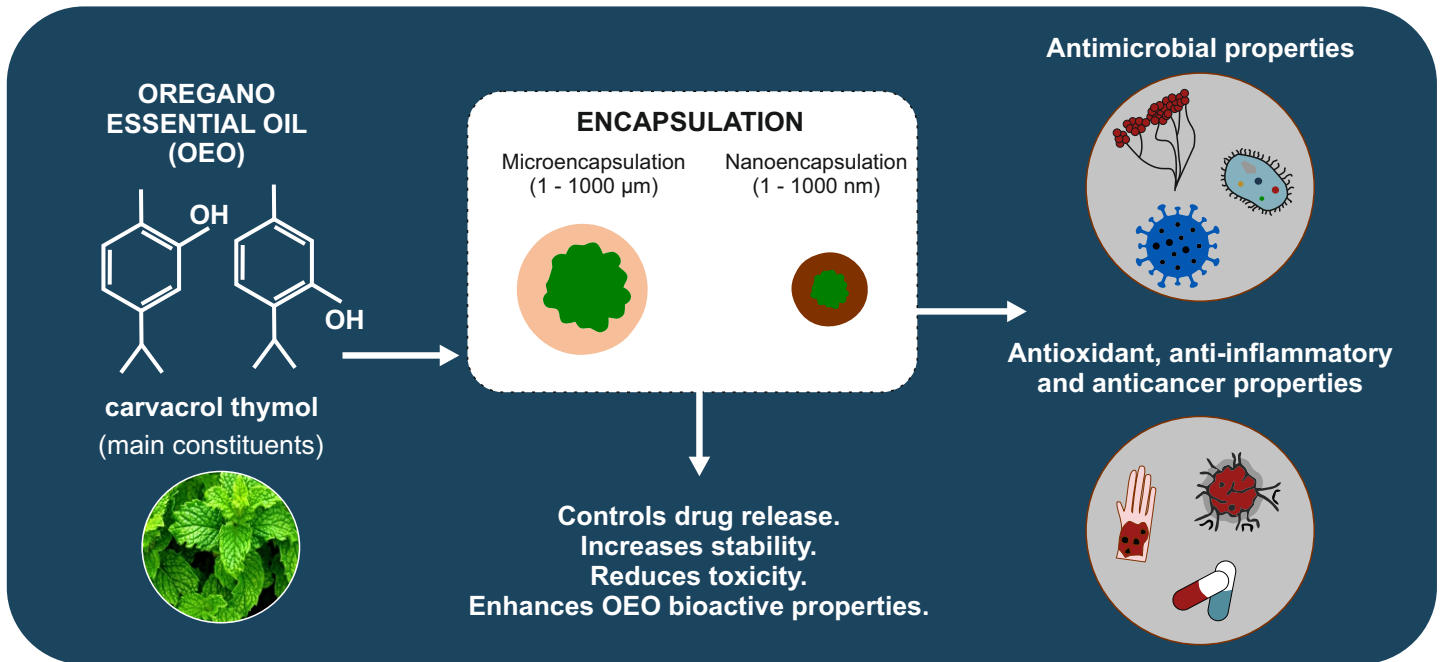

- **Poultry:** 100 - 250 g per ton of feed.  
In severe condition / heavy birds, double the dose for all round protection, salmonella control, and better digestion systems in layer and breeder flock.
- **In Gangrenous Dermatitis:** 750 g to 1 kg per ton of feed.  
Or
- As advised by **Veterinarian / Nutritionist.**

## PRESENTATION:

5 Kg, 25 Kg

Scientifically developed natural product for gut health

Oregano essential oil is one of the most widely used essential oil in worldwide. It has two main constituents namely - Carvacrol and Thymol. Oregano oil encapsulation is an interesting strategy used to increase its stability, enhance its bioactivity and decrease its volatility. Both after encapsulation shows/ provides antimicrobial, antioxidant and anti-inflammatory properties.
