

BioGrow

A Non Antibiotic Growth Promoter

Halquinol

Antibacterial | Antifungal | Antiprotozoal

Bio - Grow is a Quinoline derivative growth promoter with Antibacterial, Antifungal & Antiprotozoal activity. It contains a mixture of 5,7-dichloro-8-hydroxyquinoline (57-74%), 5-chloro-8-hydroxyquinoline (23-40%) & 7-chloro-8-hydroxyquinoline (0-4%).

BENEFITS:

- Wider Antibacterial spectrum than conventional Antibiotics. Also have additional activity against Fungus & Protozoa.
- Environmental friendly, no residues in food chain.
- Doesn't get absorbed from intestine, so, it's a gut acting Antimicrobial Agent.
- Non specifically reduces the tone & motility of Intestine which in turn reduces the movement of food through GIT, allowing complete digestion & absorption of Nutrients.
- Modifies intestinal flora & controls diarrhoea.
- Unlike antibiotics, there is no development of resistance.
- Have more spectrum, efficacy & safety than other Growth Promoters like Virginiamycin, Zinc Bacitracin, Tylosin, Florfenicol etc.

INCLUSION RATE:

(In Gram/Ton of Feed)

Concentration	Poultry		Swine		
	Growth Promoter	Treatment	Growth Promoter	Treatment	
			Pre Starter/Starter	Grower/Finisher	
13.5%	250-500	1000	1000	500	5000
24%	125-250	500	500	250	2500
60%	50-100	200	200	100	1000
98% (B.P.)	30-60	50-100	50-75	75-100	750-1000

PRESENTATION:

Available in 12%, 60% & 98% Powder in 25 Kg Pack.
