

BIOQUIN-10

Olaquindox 10% Premix

Anti-microbial Growth Promoter

COMPOSITION:

Contains Olaquindox 10 % 100 g / kg

FEATURES:

It has an effective antibacterial activity against Gram-positive and Gram-negative pathogenic bacteria (*E. coli*, *Salmonella* spp., *Pasteurella* spp., *Staphylococcus* spp., *Proteus* spp., and others).

It supports the dysfunction of DNA gyrase, resulting in broken DNA structure of bacteria, thereby destroying the microbial cells.

Olaquindox stimulates motor and secretory-enzymatic function of the gastrointestinal tract, which contributes to better assimilation of nutrients diet of animals and birds.

BENEFITS:

Prevents & controls gastrointestinal and respiratory infections.

Rapid absorption & fast action.

Helps to improve digestibility of feed nutrient absorption.

Improves growth, performance and livability.

Contraindication: Do not feed to horses.

DOSAGE AND ADMINISTRATION:

Use only as directed.

To be thoroughly mixed into the feed as follows:

Broilers:

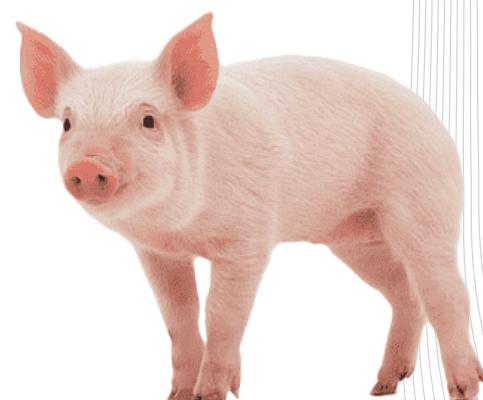

100 g per ton (10 ppm).

The mixing rate may be increased to 200 g per ton (20 ppm) only after consulting registered veterinary practitioner and his advise.

Pigs:

500 g per ton (50 ppm).

The mixing rate may be halved to 250 g per ton (25 ppm) or doubled to 1000 g per ton (100 ppm) , only after consulting registered veterinary practitioner and his advise.

**Withdrawal Period
48 hours before slaughter.**
