

EnraCare

Enramycin Granules 8%

**Enracare is a polypeptide antibiotic obtained From *Streptomyces fungicidicus*
Enracare has strong bactericidal activity against gram positive bacteria.
It inhibits growth of major harmful pathogens of the gut.**

COMPOSITION:

Each 1 kg Contains
Enramycin8%
Carrier Q.S.

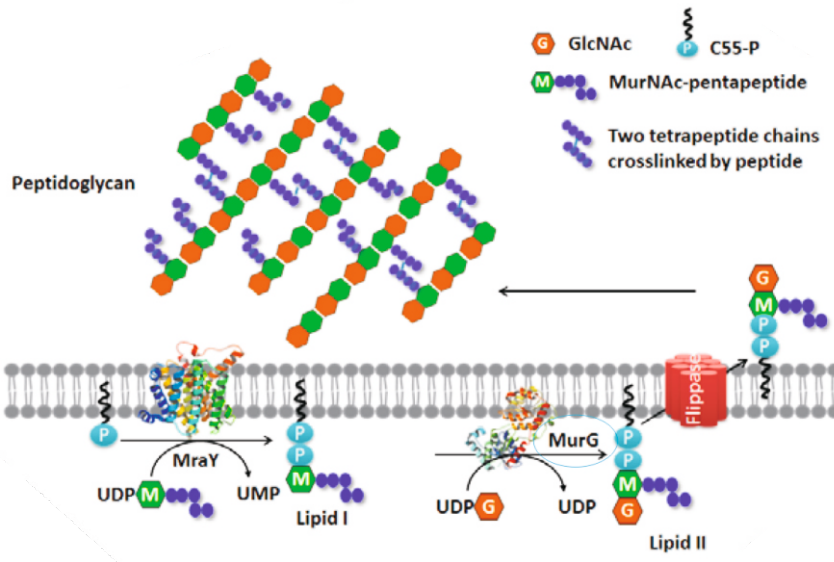

BENEFITS:

- ▶ Improves intestinal health, resulting in better feed efficiency and growth performance.
- ▶ No side effects; cost effective; consistent results.
- ▶ Improves feed efficiency and FCR.
- ▶ Reduces wet droppings.

MODE OF ACTION:

Enracare acts as an inhibitor of the enzyme (MurG), which is essential for cell wall biosynthesis in gram +ve bacteria. MurG catalyzes the transglycosylation reaction in the last step of peptidoglycan biosynthesis. Hence inhibiting this step greatly compromises cell wall integrity leading to cell lysis.

INCLUSION RATE:

Broilers: Starter and pre-starter feed: 63 to 125 g / ton of feed.
Finisher : 38 to 125 g / ton of feed.
Layers : Breeders 63 to 125 g / ton of feed.

WITHDRAWAL PERIOD:

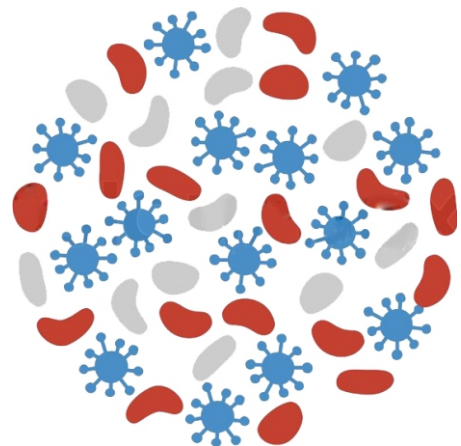

Broilers:- 7 days before slaughter

PRESENTATION:

5 kg & 25 kg

STORAGE:

Store in cool dry place at room temperature.
