

Enzymex^{Pro}

Maximizes the growth & performance

Enzymex - Pro is a perfect combination of essential enzymes which helps in nutrient absorption with beneficial probiotics along with live yeast.

Birds naturally produces enzymes to aid the digestion of feed nutrients, however, it lacks enzyme to break down fiber completely. They need exogenous enzymes in feed for better digestion.

Probiotics improves the shape index, yolk color, and weight of eggs. It also improves the health status of birds by reducing ammonia production in the intestines.

Live yeast can improve gut health, leading to better growth performance, meat yield and nutrient digestibility. It stimulates the host adaptive immune system in birds.

Ingredients:

Xylanase	Pectinase
Protease	Mannanase
Cellulase	Lipase
β - glucanase	<i>Bacillus subtilis</i>
Amylase	<i>Bacillus licheniformis</i>
Phytase	<i>Bacillus amyloliquefaciens</i>
	<i>Saccharomyces cerevisiae</i>

Benefits:

- **Enzymex - Pro** optimizes feed efficiency by enhancing nutrient absorption.
- It contains unique blend of enzymes, probiotics & live yeast to aid nutrient digestion.
- Improves nutrient availability for better poultry productivity.
- Decreases the occurrence of loose droppings and lessens environmental impact.
- Multiple enzymes and probiotics support overall poultry health.

Usage & administration:

BROILERS: 300 to 350 g/MT of feed

BREEDERS: 250 to 300 g/MT of feed

LAYERS: 200 to 250 g/MT of feed

or

as advised by Veterinarian/ Nutritionist
