

Phytofit-5000

Phytase 5000 FTU

DESCRIPTION:

Phytofit 5000 is a phytase enzyme specially designed for use in feed pellets manufactured for monogastric animals fed on diet containing plant material. It reduces anti-nutrient action of non-degradable phytic acid so as to improve the nutrient utilization. **Phytofit 5000** is used to improve nutritional quality of phytic acid rich feed ingredients. It is recommended for feeds designed for birds and monogastric animals

COMPOSITION:

Each gram contains:
Phytase 5000 FTU
Carrier Q.S.

FEATURES

- Improves utilization of bound phosphorous by liberating inorganic phosphorous from phytic acid in plant materials.
- Supplementation of phosphorous in the form DCP can be reduced.
- Reduction in amount of phosphorous loss through excreta and thus reduces pollution of an environment.
- Improves utilization of minerals such as calcium, magnesium, zinc, iron & proteins such as amino acids.
- Improves metabolism and physiological functions of animals.

DOSAGE & ADMINISTRATION:

Poultry:

Layers: 80 to 100 g / ton of feed

Broilers: 200 g / ton of feed

Egg Duck: 80 to 100 g / ton of feed

Or

as advised by Veterinarian / Nutritionist

PRESENTATION:

25 kg
